Rick I am writing you to inform you that Stephanie J Storey is is the owner of the land formly owned by O Farrell Jensen of 2582 West 1800 North Ogden Utah. Farrell is the former owner of land that is being considered for developement of the rail system from Salina, to Lavan. Stephanie resides at 785 north 4400 west OGden utah 84404. We feel that we have not been adequately informed of the process and all of the different routes that the line may take. we are not infavor of the line that runs close to the lake which would impeded our land. Instead we favor the route that would take the train along the foot hills, we feel this route would be better for the community, and all land owners involved, with less impact on wet lands and ranching and farming and wildlife. Therefore we are giving your inspectors ample notice, we do not want people from your company on our land with out a court order giving you the right to tresspass.

Thank you Mark C. Storey (801) 710-3843
